

THE FUTURE OF THE HOME

mattamyHOMES

Mattamy is proud to announce a partnership with ecobee to create more sustainable, cost-effective and comfortable living in every one of our homes. A leader in smart thermostat technology, ecobee is the creator of the world's first Wi-Fi-enabled thermostat.

You and your family can enjoy:

- SmartSensor temperature control
- Saving money on energy bills
- Built-in Amazon Alexa Voice Control
- Integration with leading smart home technology from Amazon, Apple, Google, Samsung and more

We look forward to continuing to build homes and communities that are economical, innovative and healthy.

Additional options are available in our Design Studios. See your consultant for more details.
